Traffic safety is a priority for the City of Tigard. Running red lights has been identified as the leading cause of urban crashes according to studies. There are not enough police officers to enforce traffic laws at every dangerous intersection in Tigard. Photo enforcement technology has been shown to help reduce crashes and improve the safety for motorists, pedestrians and bicyclists.

Photo traffic enforcement is about to begin in Tigard at three intersections along Pacific Highway (99w). The installation of photo enforcement equipment is currently underway at the Hall Boulevard intersection. It is expected to be turned-on beginning January 8, 2020. At that time, a 30-day warning period will begin to help motorists adjust to the changes. Citations will follow and likely will issued beginning on or around February 8, 2020.

The intersection at Durham Road and Pacific Highway (99w) will likely be activated on or around January 13, 2020. The 30-day warning period will then begin, and citations will be issued beginning February 13, 2020.

The third intersection at 72nd Avenue and Pacific Highway (99W) will begin the 30-day warning period on January 17, 2020. The issuance of citations will begin on or around February 18, 2020. Please note that all the dates noted are subject to change due to any delays in installation.

Tigard Police will administer the photo enforcement program. Please check the website for additional information regarding photo enforcement https://www.tigard-or.gov/police/photo_traffic_enforcement.php
