Hiring Elementary and Secondary TWI Teachers

Why teach Two-Way Spanish Immersion in Tigard/Tualatin?

- Strong community support for the TWI program
- Collaborative teaming at every grade level
- District mentoring program for new teachers
- Instructional assistants in some classrooms during reading and math blocks
- Additional funding of $1000 per classroom beyond the yearly $800 professional educational fund for classroom set up and professional development
- Spanish curriculum purchased for reading, math, and science

We are growing!

Two-Way Spanish Immersion in Tigard-Tualatin continues to grow and we are looking for teachers who want to grow with us.

Our TWI classrooms are made up of students that are 50% native Spanish speakers and 50% native English speakers. We use a 90:10 immersion model; our kindergarteners are instructed in Spanish 90% of their day and 10% in English. The percentage of English instruction gradually increases until 4th grade, when the language ratio reaches and remains at 50:50.

Our program began in 2012 with kindergarten classes and we are now in the midst of expanding to our secondary schools. In 2025, we will graduate our first bilingual, biliterate, and multicultural competent cohort. Tigard-Tualatin is a school district of 15 schools with 12,000 students, located in the suburbs of Portland, Oregon.

An advanced level of Spanish proficiency is required.
