

SAFETY & SECURITY

Enhance safety and security district-wide:

- Security cameras;
- Door locks that can be locked from inside the classroom;
- Remote control door closures and/or new doors to close off classroom areas from main entrances or direct public access through main office;
- At Woodward, Byrom, Bridgeport, Durham and Fowler, relocate main offices to the front of the school.

Entry access improvements and remote control door closures would improve school security

Offices at several schools would be relocated to the front of the building to improve line of sight to the parking lot and school exterior.

(see Fowler example)

INFRASTRUCTURE INVESTMENTS

District-wide infrastructure improvements including:

- Scheduled roof repair and/or replacement;
- Worn parking lot and play area repaving;
- Heating, Ventilation and Air Conditioning improvements or replacement;
- Worn furniture, lockers and flooring replacement;
- Tualatin High and Hazelbrook track resurfacing;
- Tigard High tennis court rebuild;
- Tualatin High baseball and softball field improvements including spectator ADA access;
- Elementary playground drainage improvements.

Roofs would be repaired or replaced

HVAC and drainage would be addressed

Parking lots would be repaved
